

Yearbook Summer Assignment

Rule of thirds, F/stop (Depth of Field), Shutter Speed, Panning, Continuous action

Part 1)

Read the packet. Study it by heart. Know your camera. Feel your camera. Touch your camera. Lick your camera. Maybe not. Haha, but the whole point of this assignment is for you to become familiar with the functions of your camera. If you don't have a personal DSLR, we are trying to get it lent from the school, so hang in there!

Part 2)

Now that you've learned more about digital photography, we will take pictures! Our assignment will be to take:

- 4 Amazing Portraits
- 4 Fabulous Action Pictures.

After you have selected your 8 best pictures, pick 2 of your favorite Amazing Portraits and 2 of your Fabulous Action Pictures. Then, write a short description for each photograph. Please include the following information for each photograph:

- F/stop and Shutter speed (you can find this by pressing 'apple + i' on iPhoto)
- What photographic technique did you use?
- What is the subject of your photograph?
- Why do you like this photograph?

Example:

Shuper Shweet Shpeedy Shlide.

f/4.8

1/20

The subject in this picture is Dong-Min in the playground coming down on a slide. Fast shutter speed was used to capture the continuous action. I like this picture because it shows fun colors, and candid facial expression of Dong-Min on his way down.
